

TECHNICAL DATA SHEET

SECUMAX 150 NO. 150001

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX 150 blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.

DISPOSABLE SAFETY KNIFE WITH CONCEALED BLADE. FOR CUTTING, SCRAPING AND SCORING.

Order No. 150001.08

Full points in three regards.

SECUMAX 150 resolves several issues in one. With its concealed blade, you will never have to worry about injuring yourself or damaging your goods. Thanks to its versatility, you only need the one tool to cut, scrape and split. And with its 24 grams and ergonomic design, the SECUMAX 150 won't weigh you down with fatigue after a day of cutting. In short: it is the cutting tool you have been waiting for.

3-in-1 blade head

The SECUMAX 150 fits like a glove. It's so comfortable to hold, that it feels like an extension of your hand. With it you can cut cardboard, split tape, open plastic strapping... you can even scrape residue off surfaces.

Concealed blade

This safety knife doesn't need a sharp tip to be a smart cutter. The cutting head is flat and relatively small, the two noses on either side are the perfect length to protect, and both cutting edges are wide enough to safely and effort-

lessly cut 2-ply cardboard.

Clever guide surfaces

Another reason why the SECUMAX 150 can cut through cardboard so easily? The guide surfaces located right at the front of the cutter help you to cut on an angle. Angled cutting means less material resistance!

No blade change

The SECUMAX 150 is a disposable cutter. The blade can neither get lost nor injure you during blade change. You won't change the blade! When the time has come, simply drop the cutter into a sharps container.

Ergonomically shaped

Right handed? Left handed? It's really all the same. The SECUMAX 150 fits perfectly in any hand. Gently arching outer edges, coupled with light ribbing and a low weight, ensure an ergonomic experience.
